link wrap

Matt Alias - 2023-07-21 - [Comentarios \(0\)](#) - [Generale](#)

This is s long link in the help center

Adds horizontal scroll rather than wraps

```
http://<server_name>/AQWebPortal/Data/DataSet/Chart/Location/##DataSetId=LocationIdentifier##/DataSet/##DataSetId=ParameterIdentifier##/##DataSetId=Label##/Interval/Latest
```

It no longer runs into the margin
